Accelerating the eMobility transition

B2B eV Marketplace
WeVee Navigation & Lifestyle App

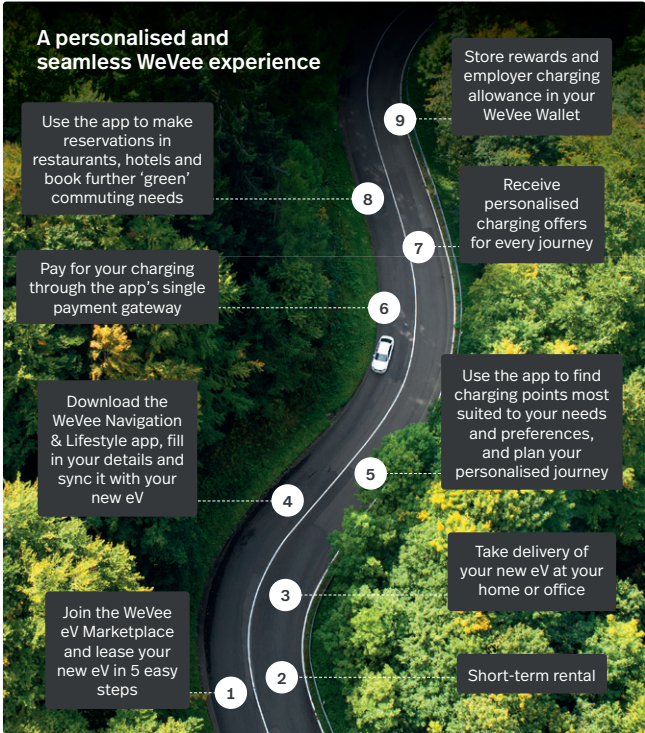

WeVee is a European deep tech/cleantech company driving sustainable living through Ai, smart technology, and personalised experiences.

Our products are designed to accelerate the transition to eMobility, sustainable consumption and improved efficiency in commuting and travel.

The **B2B eV Marketplace** is a leasing platform that enables quick implementation of Salary Compensation and accountable ESG activity, without incremental effort for the employer. Employers substantially reduce their CO2 emissions, and employees make considerable savings on their leasing costs.

The **WeVee Navigation & Lifestyle App** brings together turn-by-turn navigation, amenity-based route planning, single payment gateway and one-tap charging at over 300,000 charging points around Europe.

WeVee strives to drive the transition to a greener future by providing a comprehensive suite of smart solutions that can keep up with the ever-changing needs of our consumers.

Now available

WeVee Navigation & Lifestyle App

- One-tap charge & pay at over 300k chargers across Europe means no more multiple charge cards.
- Live map of charging stations along your route.
- Personalised amenity-based route planning to accommodate your needs while you charge.
- Your charging history and eV's battery level at a glance.
- Rewards for sustainable driving behaviour through the WeVee Wallet.

B2B eV Marketplace the tax-efficient eV leasing platform for businesses and employees.

**Activate and implement eV tax incentives
(Salary Sacrifice and GHG Quota)**

**Reduce your organisation's
Scope 3 CO2 emissions.**
